FOR IMMEDIATE RELEASE

Changing With the Times Brings New Resources to Electronics Manufacturers In the Northwestern United States.

October 15, 2009, Canandaigua, NY - Select Fabricators Inc. is pleased to announce the appointment of Lionheart Northwest, Inc., a manufacturer's representative firm serving the EMC, RF and Microwave communities in the Pacific Northwest and now the source for SFi's portable, durable EMI shielding curtains, pouches and enclosures in the Northwest United States.

"We rarely encounter true innovation in the EMC business", remarked Leo Smale, President, Lionheart Northwest, "But SFi's products represent a genuine advance in shielding technology for applications that hitherto required far more cumbersome techniques. We look forward to introducing Select Fabricators to customers in the Pacific Northwest."

Select Fabricators specializes in the design and manufacture of flexible solutions including EMI/RFI shielding tents, pouches and curtains. SFi's product capabilities range from machinery covers and shrouds, cleanroom bags, cleanroom assemblies, and aerospace covers. The common denominator is the use of flexible materials to deliver safety, security and storage. "We are excited to add Lionheart Northwest's advanced technical knowledge to our unique product manufacturing expertise and satisfy their customers' requirements" stated Dan Ramich, Director of Sales at Select Fabricators Inc. "Our EMI shielding enclosure systems are being used

successfully for applications in the wireless, security, government, semiconductor, medical, automotive and aerospace industries.”

Founded in 2000, Select Fabricators is located near Rochester, New York and is privately owned. The SFi's team has many years of experience in the flexible products industry including research, design, manufacturing, testing and fulfillment.
