FOR IMMEDIATE RELEASE

Select Fabricators Enhances its RFI/EMI Expertise With New Technical Sales Staff.

October 18, 2010 Canandaigua, NY - Select Fabricators Inc. is pleased to announce the appointment of Brian Smith as Technical Sales Specialist concentrating in the areas of RFI/EMI shielding curtains, pouches, tent enclosures, custom applications, flexible packaging, and Aerospace & Defense products. Kristin Lupien, Production & Sales Support Manager, has been given additional responsibilities to ensure completion of RFI/EMI products to customer specifications.

Select Fabricators makes RFI/EMI shielding pouches, curtains and enclosures using USA manufactured conductive silver/copper/nickel fabric employing the latest construction methods to ensure integrity and a high level of shielding effectiveness. SFi has provided RFI/EMI shielding solutions to the wireless, automotive, security, medical and laboratory industries in both North American and International markets.

Brian Smith, formerly with Ramsey Electronics Inc., has over twelve years of experience in supporting customer specific application requirements for the RFI/EMI shielded test enclosure industry. Brian specializes in making sure that the end product matches the customer's concept by paying attention to every detail and implementing the latest shielding or filtering techniques to provide the highest achievable performance. Kristin Lupien has been employed in

both the medical assembly and packaging as well as RFI/EMI industry. She is experienced and skilled in product quotation, scheduling to include all phases of production planning, expediting and purchasing activities..

“With the addition of the technical support from Brian and Kristin’s focus on meeting detailed specifications, we are able to provide off-the-shelf and custom RFI/EMI curtains, pouches, tents and flexible enclosures for a wide range of needs. “In addition to Brian’s sales efforts he will be developing new products and upgrade existing RFI/EMI products which include the RFI bench-top tent enclosure which we have sold for several years.” Kristin has worked for me over the years and has proven to be an innovative planner who gets the job done. Her attention to detail and ability to follow up will help our manufacturing personnel deliver products on time to the most exacting specification.” stated Gary Winch, Chief Operating Officer at Select Fabricators Inc.

Select Fabricators, Inc. specializes in the design and manufacture of flexible solutions including RFI/EMI shielding tents, pouches and curtains, machinery covers and shrouds, aerospace covers and assemblies, death care products, cleanroom bags and assemblies and high strength / high barrier custom bags. The common denominator amongst all SFI products is the use of flexible materials to provide product or application protection and / or shielding.

Select Fabricators is located in Canandaigua, New York. Founded in 2000, it is privately owned. Each of the partners has years of experience in the flexible packaging and RF/EMI industry including research, design, manufacturing and fulfillment.
